VidyoRoom HD-2C™

High Performance Group Collaboration

Business Challenge

Today's workplace requires high quality video group collaboration to maintain a competitive edge. High quality video collaboration was cost prohibitive to deploy for broader use, forcing enterprises to choose between high quality for a few, or low quality for the masses. Enterprises require group video conferencing systems that deliver crystal clear quality that can be broadly deployed for maximum effect.

VidyoRoom HD-2C delivers impressive quality for every meeting room

Quality matters.

Solution Overview

The rapid pace of business demands clear communications so teams can make decisions quickly. The best way to maintain a nimble organization is to clearly communicate important ideas the first time. Not all meetings can be an in-person, but high-quality video conferencing is the next best thing to an in-person meeting.

Fast paced teams demand high quality video conferencing to ensure no detail is lost. The powerful VidyoRoom™ HD-2C is the ideal system for team collaboration with seamless touch screen support and the ability to deliver incredible 4K Ultra HD video resolution without sacrificing quality from remote participants or their content.

The VidyoRoom HD-2C is very affordable and has a compact form factor that is easy to deploy in virtually any conference room.

Outstanding User Experience

- Receive up to 4K video and content
- Dynamic adaptation technology continuously optimizes the video for unmatched fidelity, even on wireless
- Screen configurations supporting up to 16 participants viewable on screen
- Multipoint Content Sharing: toggle to switch between shares from multiple participants
- Calendar integration for single-tap meeting access with support for Microsoft® Exchange and Google® Calendar
- Enable a video wall system by pairing multiple VidyoRoom systems. Display limitless video windows of remote participants.
- Meet with participants from all types of endpoints, including room systems, desktops, laptops, tablets, and mobile devices

IT Benefits

- Compatible with VidyoPlatform's hosted video service as well as on-premises based systems
- Multiple user friendly remote control options including room automation systems like AMX® and Crestron®, the free VidyoControl app for tablets or hand-held remote control with simple to navigate on-screen UI
- Tight integration with professional audio and USB PTZ Logitech® GROUP
- Conference moderation and automatic software updates
- Advanced SVC (UCIF Mode 2s) delivers unmatched quality, reliability and efficiency
- Flexible deployment options supporting one and two screen configuration
